# Nænsom<sup>♥</sup>

Nænsom is a range of hypoallergenic pillows and duvets, which is designed, tested and manufactured to the highest quality standards.

Nænsom is Nordic Swan Ecolabelled, organic and certified by Astma-Allergi Danmark.

# BEST FOR YOU AND THE ENVIRONMENT

## BEST FOR YOU

Nænsom is hypoallergenic and does not include optical brightener, formaldehyde, perfume or any other unnecessary substances and processes that may cause allergies. So, when it comes to allergy friendliness, Nænsom is the frontrunner.  
It's best for you.

## BEST FOR THE ENVIRONMENT

Nænsom bears the environment in mind. Nordic Swan Ecolabelled and with organic pillow and duvet covers. We take extra care from start to finish. From design to production – from logistics to packaging. It's best for the environment.

## BEST ALL THE WAY

Nænsom selects down and feathers on the basis of the highest ethical standards. Downpass-certified – a quality check that proves that the down and feathers were obtained ethically.  
Quilts of Denmark is the only company in Denmark to have this certification.

# TESTED AND DECLARED

Nænsom does not compromise and lives up to the highest international standards in terms of health, environment and ethics. The products in the Nænsom allergy range are declared and labelled with the following certificates.

Your guarantee that the products contain nothing that is known to give allergies.

Your guarantee that the products are some of the least environmentally detrimental within their category. The requirements here are tougher than the legislation.

Your guarantee that we abide by the highest animal ethics standards.

All Nænsom's duvets and pillows have 100% organic cotton pillow covers. It's best for both you and nature.

Your guarantee that bacteria, viruses and other organic residues are not present in the product.

Your assurance that the product does not contain harmful chemical substances. It is tested and approved in accordance with the strictest standards.

Your guarantee that the pillow cover is so tightly woven that house-dust mites cannot penetrate the product.
